

MCL's **Supplier Collaborator** is an application that allows you to capture details of your suppliers, their capabilities, capacity and ethical credentials, to help a retailer or brand manage sourcing and ethical trade. It's a perfect tool for your embedded decision support:

### Supplier database

- **Supplier score-carding** (qualitative and quantitative) at any level.
- **Maintain details of suppliers** and related factories, including capabilities, standards management and communication history.
- **Single point of reference** for suppliers.
- **Multi-dimensional** relationships between suppliers and factories managed efficiently.
- **Meetings management.**

### Factory management

- **Capacity planning.**
- **Factory inspection** management.
- **Corrective action plans**, adopting Sedex output if required.
- An easy way to expedite outstanding actions without having to employ larger-than-necessary teams of people.

### Sourcing

- **Multi-tier** – manages sourcing at any level, from individual products, to lines and entire seasons.
- **Product and materials management.**
- **Workflows** to manage on-boarding of new suppliers, document tracking and policy revisions.
- **Supplier selection** – find suppliers who have the capacity and capabilities needed to deliver products and who have an appropriate score.
- **Compliance management** – improve the likelihood of using ethically-approved suppliers and factories.
- **Improve productivity** by removing unnecessary clerical work from key people to allow them to focus on their core skills.

BOM Material	Content	Qty per part	Remarks	Cons. (incl. 3000)	Vendor	
100-1000-0001	100-1000-0001	1	on order	1.3000 (24)	Dunlop (11000)	100-1000-0001
100-1000-0002	100-1000-0002	1		0.0100 (kg)	Partridge (11000)	100-1000-0002
100-1000-0003	100-1000-0003	1	Buy	1.3000 (100)	100-1000-0003	100-1000-0003
100-1000-0004	100-1000-0004	1	A	1.0000 (M)	Dunlop (11000)	100-1000-0004
100-1000-0005	100-1000-0005	1		1.0000 (PCS)	Dunlop (11000)	100-1000-0005
100-1000-0006	100-1000-0006	1	20 use the part	2.0000 (PCS)	Dunlop (11000)	100-1000-0006

## Software platform

- **Extensible**
- **Robust**
- **Scalable**
- **Proven**
- **Highly configurable**
- **Integration mechanisms** for linking with other business systems
- **Reporting tools**

## Key Benefits:-

- **Cost savings**
  - Reduction in sourcing costs by providing a cross-company view of suppliers, their capabilities, capacity or score-cards – removing the need for, and costs of, operating in silos.
  - Reduced risk of reduced sales as a result of “collateral damage” in the media if and when non-compliances are alleged. If your company is one of a group, then this risk could spread to other group companies.
- **Compliance**
  - Lowers the risk of using factories with no approved ethical audit.
- **Productivity**
  - Reduction in the cost and complexity of managing communications with suppliers, ethical audits and adherence to policies – manage the same volume of work with a lower headcount or more work with the same.
